Ph# (385) 216-0686

Taylorsville, Utah

Hello,

My name is Anel you can also call me "Annie". I was born in Mexico but was raised in Utah since I was 6 years old. I enjoy baking on my free time, but shhhh... (don't tell anybody most of my recipes come from a box!) Coming from a broken family, my goal in life is to watch my child(ren) grow and experience life with them as "the parent that was always there for them." However, I also am looking for financial freedom and therefore I know I have reached an end to my Dental Assisting career. As I was looking for opportunities, I came across a Web Development Certificate program through my local community college "Salt Lake Community College". Experiencing the 29-week program has been an amazing. I have learned to write raw unedited code on HTML, CSS, and PHP along with other programming languages. With this amazing career change I know there is room for me to grow and learn from peers, spend more time with my family and help the community.

My resume to follow. Have a great day!

-Anel M. Bernal Gomez
